EXPLANATORY NOTES

Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications, Australia* (1101.0) of the Australian Bureau of Statistics, which lists Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Significant occurrences in ABS Publishing are highlighted in the section Publishing News which follows the list of publications issued during the month. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

Publication prices

3. Two prices are shown for each priced publication. The first price given is the 'over the counter' price while the second includes packaging and postage at ordinary rates within Australia. Overseas clients should add 10 per cent of the second price to meet the cost of overseas surface postage. Airmail rates are available on request.

4. Where no price is shown the publication is free.

Mailing list service

5. Clients who wish to receive free or priced publications on a regular basis may use the ABS computerised Publications Mailing List (PML) Service. Further details and order forms are available from any ABS office.

6. Clients (or subscribers) who already use the PML Service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

7. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

8. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

Other Publishing News

Australian Statistics Advisory Council (ASAC) Annual Report 1985-86

This report was released on 3 October 1986.

Deaths, Australia, 1985 (Cat. No. 3302.0), released 30 October 1986, commented that the number of registered deaths in 1985 for Australia (118,808) and N.S.W. (44,044) was overstated by some 2,000 deaths as a result of delays in the registration process in N.S.W. in 1984 and the clearing of backlog in 1985.

Balance of Payments, Australia, September 1986 (Cat. No. 5301.0), released 14 October 1986, announced that commencing with the September quarter issue of the quarterly balance of payments publication 5302.0, which is due for release in November 1986, estimates will be included of exports and imports of goods and services at average 1979-80 prices, together with associated implicit price deflators and terms of trade data. In addition, that issue will incorporate more reliable interim estimates of foreign investment in Australia and Australian investment abroad for the non-official sector. As a consequence, the timing of release of the publication in all quarters except the June quarter will be delayed by about two weeks, with actual release occurring approximately 2 months after the reference quarter. In the June quarter, the publication will be released before the Commonwealth Budget is presented. As a result of the inclusion of constant price data in publication 5302.0 from the September quarter 1986, the quarterly ABS publication Exports and Imports (Balance of Payments Basis) at Constant Prices, Australia (5332.0) will be discontinued.

Labour Force, Australia, August 1986 (6203.0), released 8 October 1986, commented that tables 25 to 29 of this publication contained estimates classified according to the Australian Standard Classification of Occupations (ASCO) 1986 for the first time. Also included was a matrix (Table 41) comparing ASCO with the Classification and Classified List of Occupations (CCLO), Revised November 1980.

Price Indexes of Materials Used in Manufacturing Industries, Australia, July 1986 (6411.0), released 3 October 1986, commented that revisions shown in that issue have resulted from the replacement of estimated prices for sugar cane by final seasons prices for 1985-86.

Interstate Road Freight Movement, Australia, June Quarter 1986 (9214.0), released 27 October 1986, commented that, commencing with September quarter 1985 interstate freight movement statistics included additional enterprises identified during 1984-85 as being in the scope of the quarterly collection. To assist users in making comparisons the graphs in this publication also showed statistics for September quarter 1985 on a basis consistent with previous quarters.
